TROUBLE, HONEY LYRICS

BEAUTY IS A BEAST

yeah its youth we crawld in
and we were waving back at times
but there is no use to crawl in
cuz they will only shout goodbye

and the traces of lying
they just hang around in space
yeah I was taught in flying
but not in how to erase

bad tunes grow in this garden
I cut the sound with my embrace
I paint a picture of us
tomato sauce will make it look insane

and here it is the count off
mistakes I did again and again
but dont worry (I am a warrior), honey
so don't forget how to spell my name

the devil enters my soul, yeah yeah yeah

work it out just look back

SHARK VS. APPLE

when the shark eats an apple
I will eat you very soft
we are a mismatch baby
I wont do you no harm

I dont wanna get lost

NO NO!
SHOWER!

I know you carry youth baby
I will heat you like the devil
I guess thats not enough
I am so in love
oh please dont get cheeky
I wanna be your shark
I am tough as old boots
I would wear you all the time
but I am a troubled heart honey
I could be your solution
no you r one of the badpack
but you have the wistful look
hey, you are just a stranger
I bet you taste good

NO NO!
SHOWER!

u really wanna fight
lets keep it violent
the world is wide
there will be no sleep
all the kids will weep
when we rush in

cuz we are two of a kind baby
lets shake history
I will keep you in memory
cuz we are two of a kind baby
sharing dangerous electricity

TWISTS AND TURNS

I am just fooling time
just let it pass by
just send you a smile

eyes that stare
they move so fast
they run lines up to shake the walls
hey you cant believe its called building trees
made of arrows
you cant let go its chain

I just hear the jingle line beats
and the rest will jangle itself

I am just walking by
just rolling the dice
not sure what is mine

I will never tear it apart

no stone will talk to you
yeah and rocks cannot fly away
hell and fish speak gently words
I wanna drink them from the streets
and the thing that tickles I told you
I mean its hard to not understand you
anyway

DEICER

2

harmony you child of shame
you beauty made of fraud
you cant conseal any longer
go merge with your crime

so up the leg it crawls
shelterless but ready to pick up
a gentle glimpse

and here it is again
the hop between the lines
is kickin in

yeah its you
that keeps me coming through
yeah its you
that keeps me hanging on

trick trick trick
I need a trick to speed up time so quick
mixed up words i cannot reconnect
to the final act
they get carried away by insects

kid K

water s coming down the walls
I wish it was

like a deicer

BOUNDING INTO DISTANCE

you are one very welcome fish
in the deepest of your soul
right in the centre with yet no content
its hard to face a beat
bounding into the distance

running wilder in the dark
 got no destination
 and nothing holds you back
 and still there is something you always tried to
 ignore

there is a wall

and the map wont reveal
 the magic of this worn out core
 it just beats a lifetime
 you've seen something like this happening
 but forgot the wicked plot
 slamming doors
 smashing windows
 and those weirdos dancing limbo
 call it weakness till you sore
 and the fear of attempt makes it easy to pre-
 tend

there is a wall

two riders on the the storm
 they are coming back for me
 two riders on the storm
 haunting to be free
 come storm walk with me
 this must be the place

WE SEEK

time runs in time
 goes out of time
 your words in time could kill me dry
 just not to touch you anymore
 I never
 no I will never change
 no you should never change

I cope with it cuz its better off that I wont rely
 on your friends and no one
 I am a soldier I can move on
 and I am wasting all your time

and now I guess I proved I am wrong
 I gave you everything in the world and my
 toast said forever
 but you wont think about meeee

time runs time
 could get you down
 time runs in time goes out of time
 time runs in time
 keeps sounding really
 on and on you say
 oh I will never change
 no you should never change

its your fault but we r getting older
 I praise your time it is desire
 you gave me everything the world just looks
 great

I am waiting for that
 you want me to explain my soul
 I wont rely on ur friends and no one
 I praise the end
 I haze the town
 I never wanted to stay
 I put on the brakes

times runs in time goes out of time
 your high on that just holds you down
 just not to touch you anymore
 I will never change
 no i will never change
 no you will never change
 no you will never change
 no you will never change

time runs in time
 goes out of time
 your words in time could kill me dry
 just not to touch you anymore
 I never no I will never change
 no I will never change
 no you should never

I CALL MYSELF A ROCKET

what
 you master of what
 you try to stop me
 i am rolling over
 no one can stop

I am a daughter
 and a son

wow
 I am father and a mother
 a worker and a trainee
 and a burglar in the streets
 and I run behind the thieves
 I am lover and a hustler
 day and night

chew

I am a woman
 I am a man
 I am just doing
 best that I can

I am a woman
 I am a man

SEPTEMBER

you run where the seashells are alive
 and I run where buildings tremble wilde

by your side
 bye my wild
 by your side
 my heart is beating wild

I don't wanna say goodbye my wild

go and find a new calling,
 cuz ur captured in nothing and
 you cant see a thing
 better talk to opossums while you
 fly on my blossoms
 down in eden and above
 lets call it a way of control,
 there is a lesson to know
 let it go let it go

u could study the science of shapes,
 maybe those in which the people live
 cuz they r exactly calculated
 equation I rely on this
 yeah it is down in the gutter
 where all your childhood
 dreams where made
 yeah its unfair
 as u know that u never be satisfied

ref.

rearrange the system that u r driving
 its old and you cant handle it no more
 I know
 changes are a mystery
 and life can kick in sometimes
 and then the people
 they are still dancing everywhere
 in the middle of a square
 as the wind comes and blows this all away

for your life is a screw u would never
 let it all just go
 for your hearts in a rebel

for your hearts in a rebel
 and you drive in a circle
 and you kill all your reasons
 and they wont let you begin
 and you back and you forward
 and you back and you forward
 and you quit cuz u fear it
 you will never see it anyhow

JUST KIDS

sugartown you left me
on a wild wild trip
you became one of the ghosts
that shivered, scared the most
when its up to them
you are carrying all the trashbags
missing range of pieces
all the trashbags carried away

I see you driving you drive slow
feet on the ground
hands beatin silly sounds

and the dream of getting rich by the sea

you jolly days
when I think of them
how you shook em trough
yeah you shook em through
trembling on a wire
on this spoontwist grey gold land
grey gold land
and missiles fade
you are touching silver
long things grow
they will like us the most

in cukoosland
just kids

on a wire sore
feeling the breakdown floor
on a silverspoon line
youve gotta feel

in cuckoosland
just kids
just kids
just kids
just kids
just kids

WILD CURSE

5

I tune up with a little more
they kicked me out with a lil sword, hurting
thought that you were a superstitious god

my hands curl high
I aint cursed why should I
thought that you were a superstitious god
a superbug

but today I curse them with the wild
so that they can fly and reach a high that they
never felt before
and you are a pillow worth, you should never
touch the earth

come down, they said to me
so I came down to the shore
my brains thought of a different name
but they showed me another stranger
all talking superloud insane that run into my
vein so situated
and then I got bored so I tried to imagine how
birds smell
and Jeni fell asleep yeah right there on my
knees
and I had to take a pee a knife was touching
me

they say that they cannot fly
I bet they would never try
sure they will never fly away

we will never see you again

the earth needs its fire
cuz there is always water
I saw natural you
I saw natural me
